

CORPORATE PROFILE

2026

UNICHEM SOLUTIONS

Industrial coatings & chemical solutions

Products, technical enquiries and supply coordination for professional buyers in Oman.

UNITED CHEMICAL SOLUTIONS SPC

01 / COMPANY OVERVIEW

An Oman-based supply partner

UniChem Solutions is the commercial identity of United Chemical Solutions SPC, based in Sandan Industrial City, Sultanate of Oman. Our portfolio covers industrial coatings, building protection materials and automotive refinish products. For each enquiry, we coordinate product references, matching components, quantities, documentation and delivery requirements.

GUARDEX

Industrial & construction

Primers, protective coatings, architectural finishes and construction materials.

HPC

Automotive refinish

Preparation, colour, clear coats, matching hardeners and supporting products.

COMMERCIAL REGISTRATION	TAX IDENTIFICATION NUMBER	JSRS SUPPLIER CODE
1550745	2304402	OM117991

02 / APPLICATIONS

Where our portfolio fits

The starting point is the application, the buyer's specification and the operating environment.

Procurement & project teams

Material schedules, product identities and project documentation.

Fabrication & maintenance

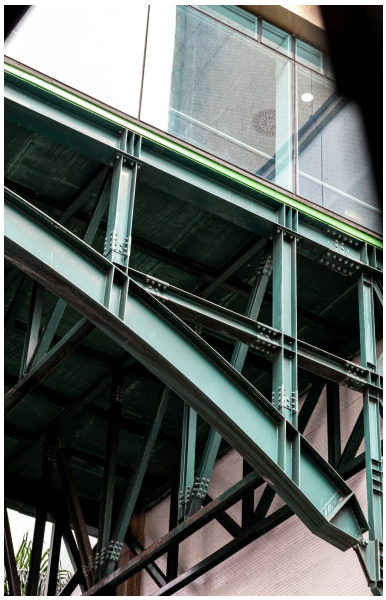

Steelwork, equipment, existing coatings and service exposure.

Buildings & facilities

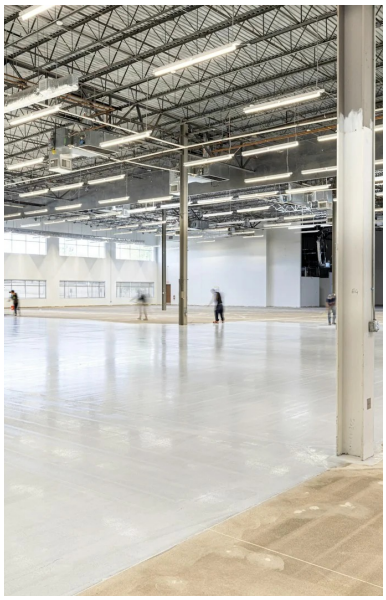

Concrete, floors, walls, roofs and maintenance requirements.

Automotive workshops

Colour, preparation, finishing systems and matching components.

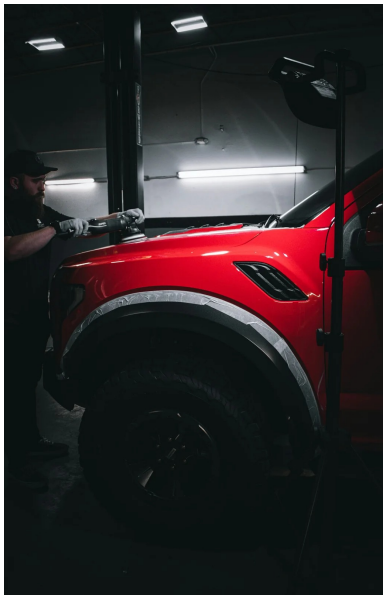

STEEL

CONCRETE

BUILDINGS

AUTOMOTIVE

03 / GUARDEX INDUSTRIAL

Industrial & protective coatings

Primers

Alkyd, zinc phosphate and epoxy primers for metalwork and industrial enquiries.

GDX-211 / GDX-225 / GDX-510

Epoxy coatings

High-build epoxy references for protective coating specifications.

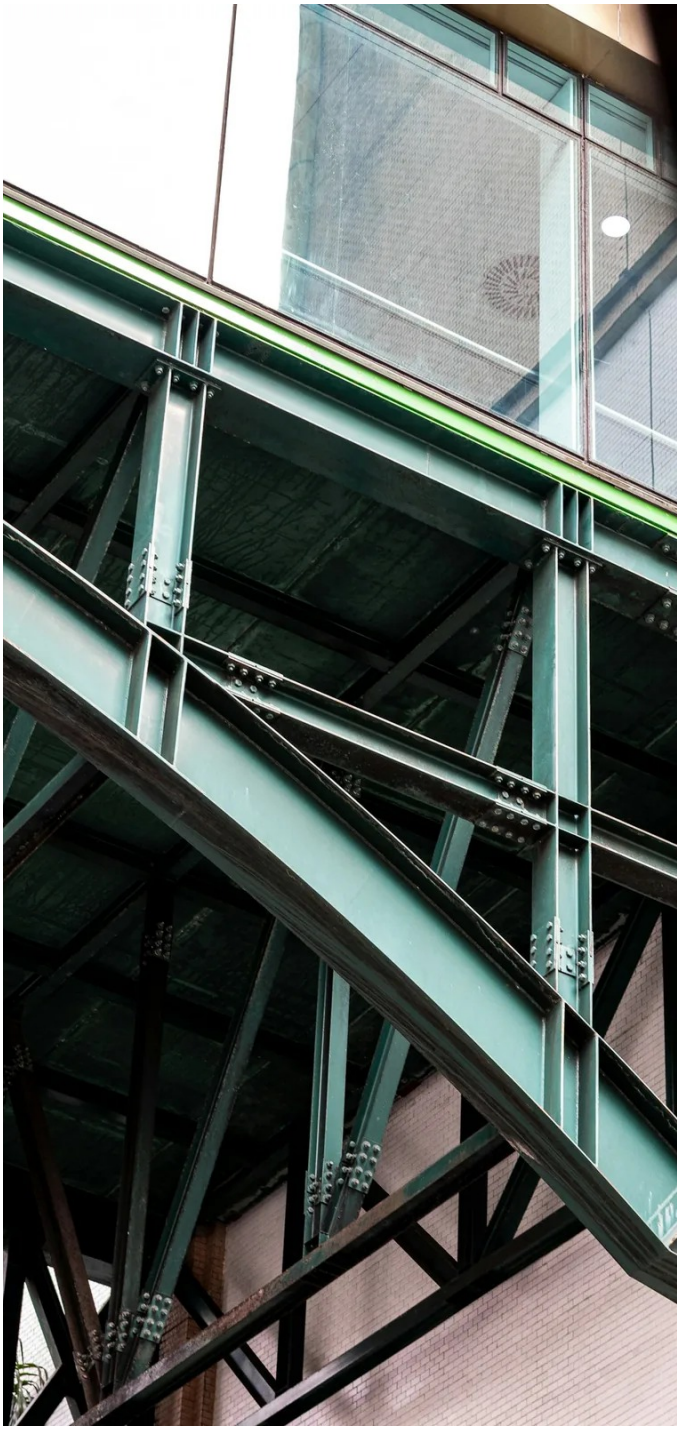

GDX-540 / GDX-710

Finishes & specialist primers

Aliphatic acrylic polyurethane and zinc-rich epoxy primer references.

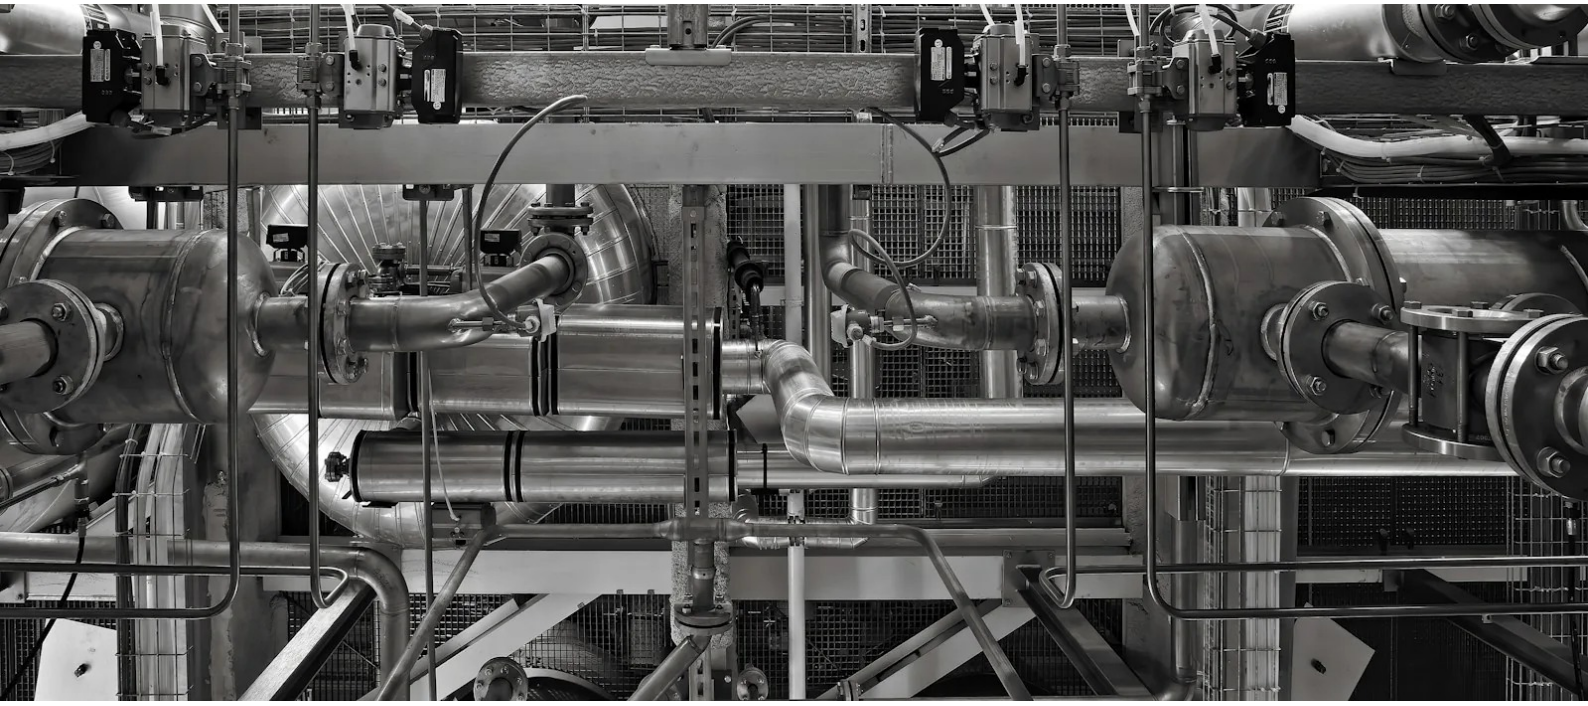

GDX-360 / GDX-525

Selection and system compatibility follow the agreed specification and current product data.

04 / OIL, GAS & INFRASTRUCTURE ENQUIRIES

Industrial assets and project requirements

We review industrial coating enquiries around steelwork, equipment, tanks and pipework. The starting point is the service environment, purchaser's specification and required documentation, so product options can be considered within a defined project scope.

Asset condition

Identify the substrate, existing coating, surface preparation, access and application method.

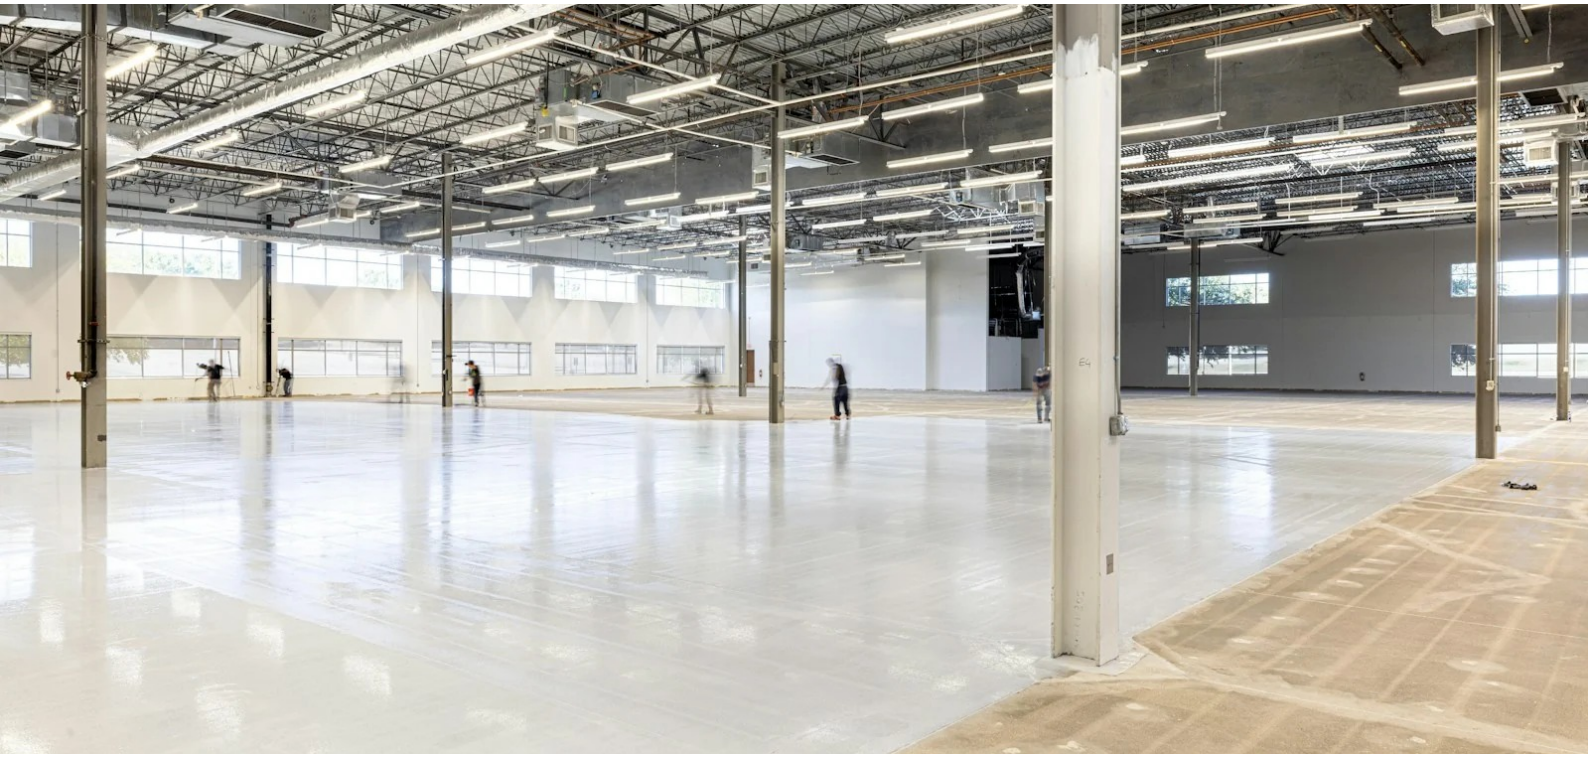

Project specification

State exposure, required system, area, film thickness and the documents needed for acceptance.

SUBSTRATE / EXPOSURE / SYSTEM / DOCUMENTATION

05 / FLOORING & CONCRETE

Flooring & concrete protection

Concrete condition, moisture, traffic, loading and chemical exposure shape the enquiry. Share the area, required thickness and finish to support a product-specific system review.

PRIMING & SEALING

Solvent-Free Epoxy Primer/ Sealer

GDX-650

PROTECTIVE COATING

High-Build Epoxy Coating

GDX-710

CRACK REPAIR

Resin Injection Crack Repair System

GDX-651

06 / CONSTRUCTION & BUILDINGS

Construction & building protection

SURFACE PROTECTION

Water-repellent treatment

For concrete and stone, selected around substrate condition and water exposure.

GDX-500

ARCHITECTURAL FINISHES

Interior & exterior materials

Matt latex, vinyl silk and exterior acrylic finishes, with alkali-resistant primer sealers and textured coatings.

GDX-181 / GDX-184
GDX-186 / GDX-187 / GDX-605

Site & facility materials

Tile Adhesive GP
GDX-603

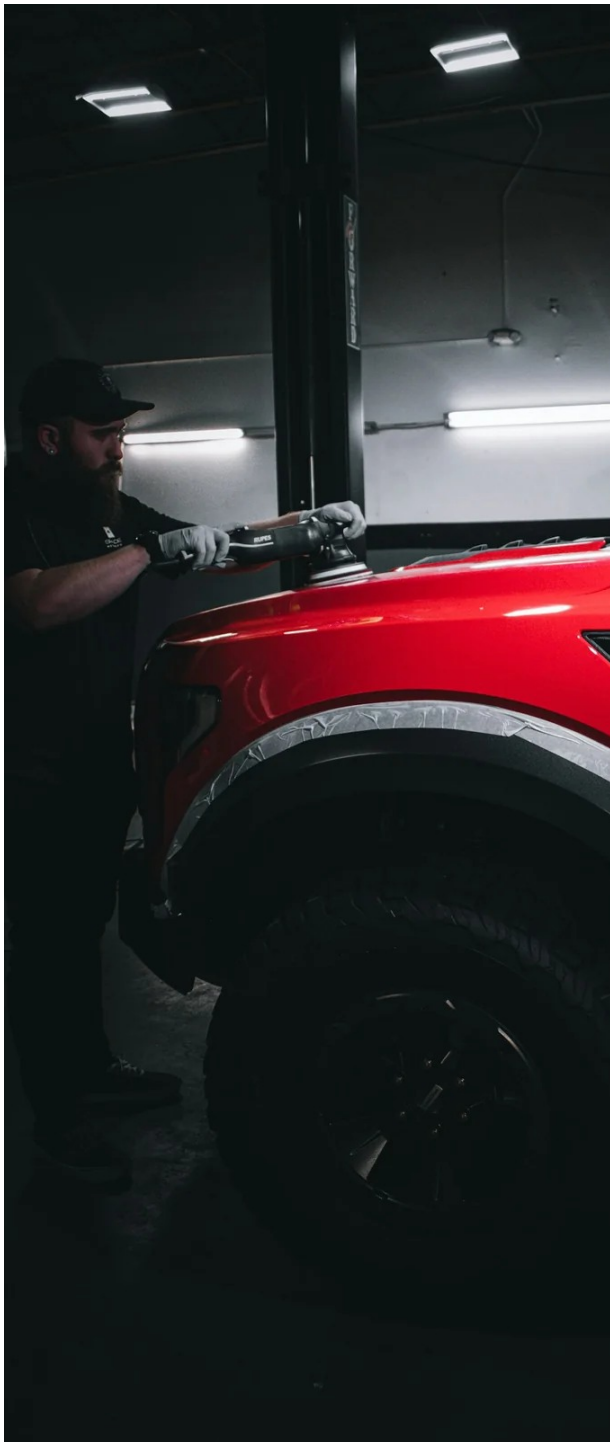

Tile Grout
GDX-604

Line Marking Paint
GDX-606

Sports Flooring Coating
GDX-601

07 / HPC AUTOMOTIVE REFINISH

Automotive refinish

HPC

Preparation

2K primer with its matching hardener, specified as separate components.

Colour systems

2K Acrylic and Base Coat Ready Mix.

2K-1001 / B.C-2001

Clear coats & hardeners

MS: C-555 + H-555
HS: C-777 + H-777
UHS: C-999 + H-999

Supporting products

Rubbing Compound P.C-3001.
Thinners: 602 / 604 / 605 / 606.

08 / PROCUREMENT & DOCUMENTATION

Supply coordination with clear requirements

01

Define the application

Substrate, exposure, existing coating, colour and purchaser's specification.

02

Review the information

Exact product and component, current technical and safety documents, and submission requirements.

03

Confirm the offer

Brand, code, components, quantity, pack size, delivery basis and agreed commercial terms.

04

Agree the delivery details

Location, requested date, quantities and the documentation required with the order.

DOCUMENTS

Technical & safety information

State the product, component, document type and language required.

TDS: product properties and application.

SDS: hazards, handling and storage.

Responsible handling

Storage and handling requirements follow the applicable product safety information.

JSRS registration validity: 7 December 2028

Customer-specific registration, product qualification and acceptance are confirmed against the relevant requirements.

10 / RESPONSIBLE MATERIAL USE

Responsible material selection

Our approach considers service life, material quantities and application efficiency. Environmental properties are reviewed product by product, with reference to the relevant documentation and project requirements.

Selection

Discuss substrate, exposure and intended service before selecting a coating system.

Quantity planning

Estimate quantities and consider application losses and residual materials.

Evidence

Review stated VOC content and environmental performance against product-specific data.

CONTACT UNICHEM

Discuss your next requirement

Contact our commercial team for product and project enquiries.
